# about Habibyar

Born/raised in Pakistan/Afghanistan, Habibyar has been taking pictures for almost 20 years. His art work has been shown at several solo and group exhibitions in Afghanistan, Pakistan, Turkey, Italy and Austria.

His field of focus was always Peace, Tolerance, Human rights and any positive gesture which can bring people closer to each other.

Habibyar is currently working as Refugee Care specialist with the interior ministry of Austria and also as Freelance Photographer and Translator.

# Know before starting Photography

**Know your camera (DSLR, Fix Lens Digital compact, Smart phone etc)**

**Hold the camera still**

**Know/Break the Rules**

**Take a few more**

**Be creative**

**Tell a “story”**

3 TYPES OF PHOTOGRAPHY

**PORTRAITS**

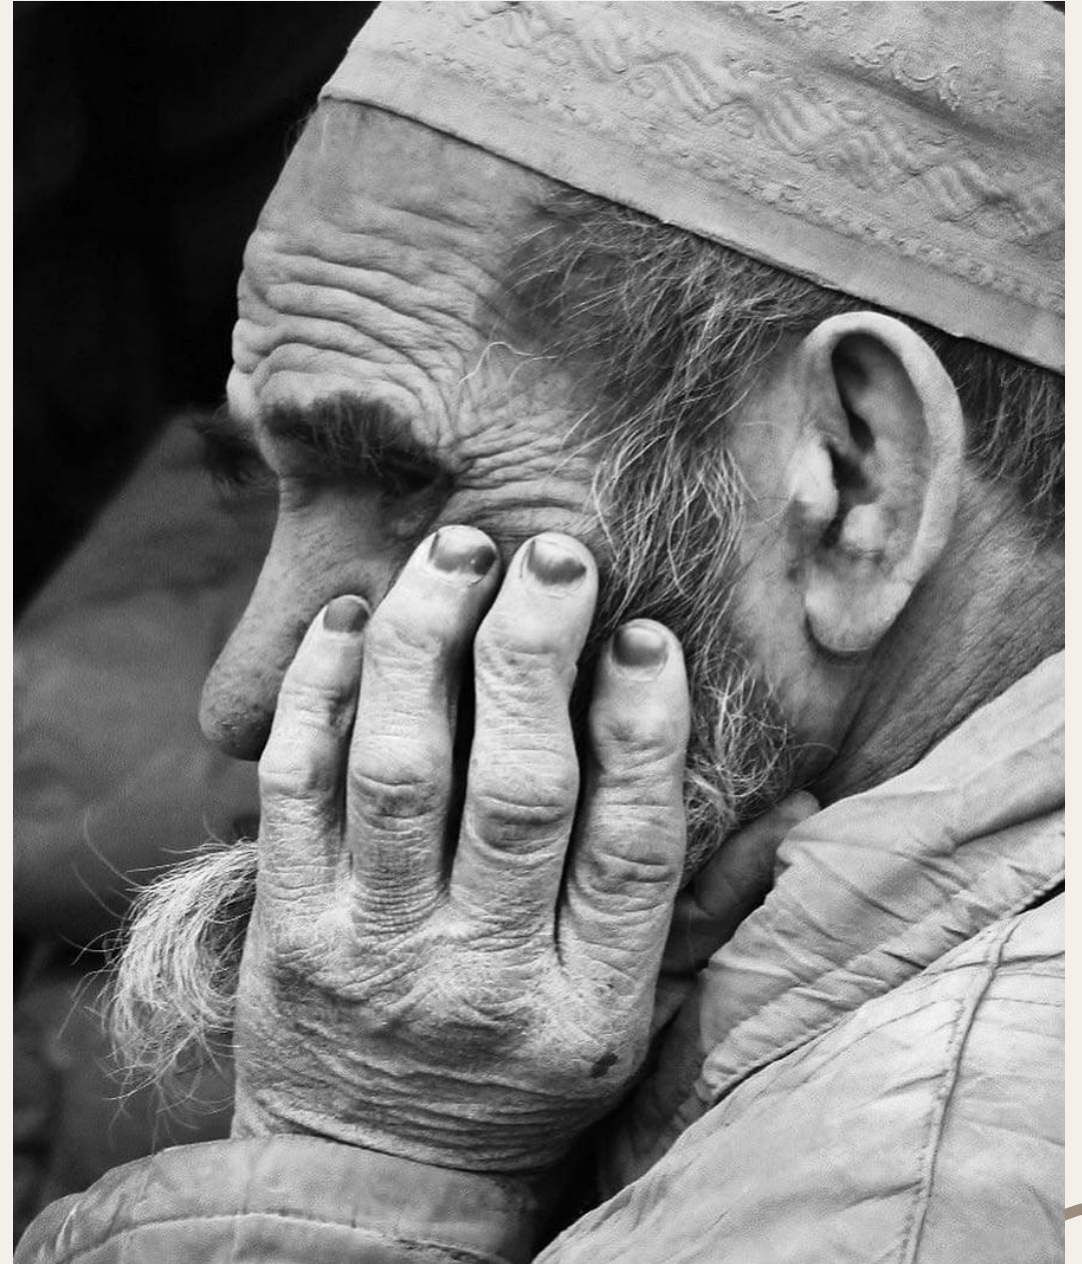

**LANDSCAPE**

**DOCUMENTARY**

Portrait photography is a photo of a person or animal. It is important to show an emotion.

# Portrait

Landscape is a photograph of the environment.  
It could be the forest, mountains, oceans, or  
your backyard.

# Landscape

Newspaper, Internet, Books & Magazines

Documentary photographs can be either landscape or portrait.

Documentary photography presents facts without changing anything.

Good documentary photographs make you wonder what the story is behind the photograph.

# Documentary

# Rule of Thirds

Avoid using flash, even for night shots

*The indiscriminate blast of flash destroys the intimate mood of existing light*

*Create **impact** by using **frames** and **real or inferred lines** that lead the viewer's eye into and around the picture*

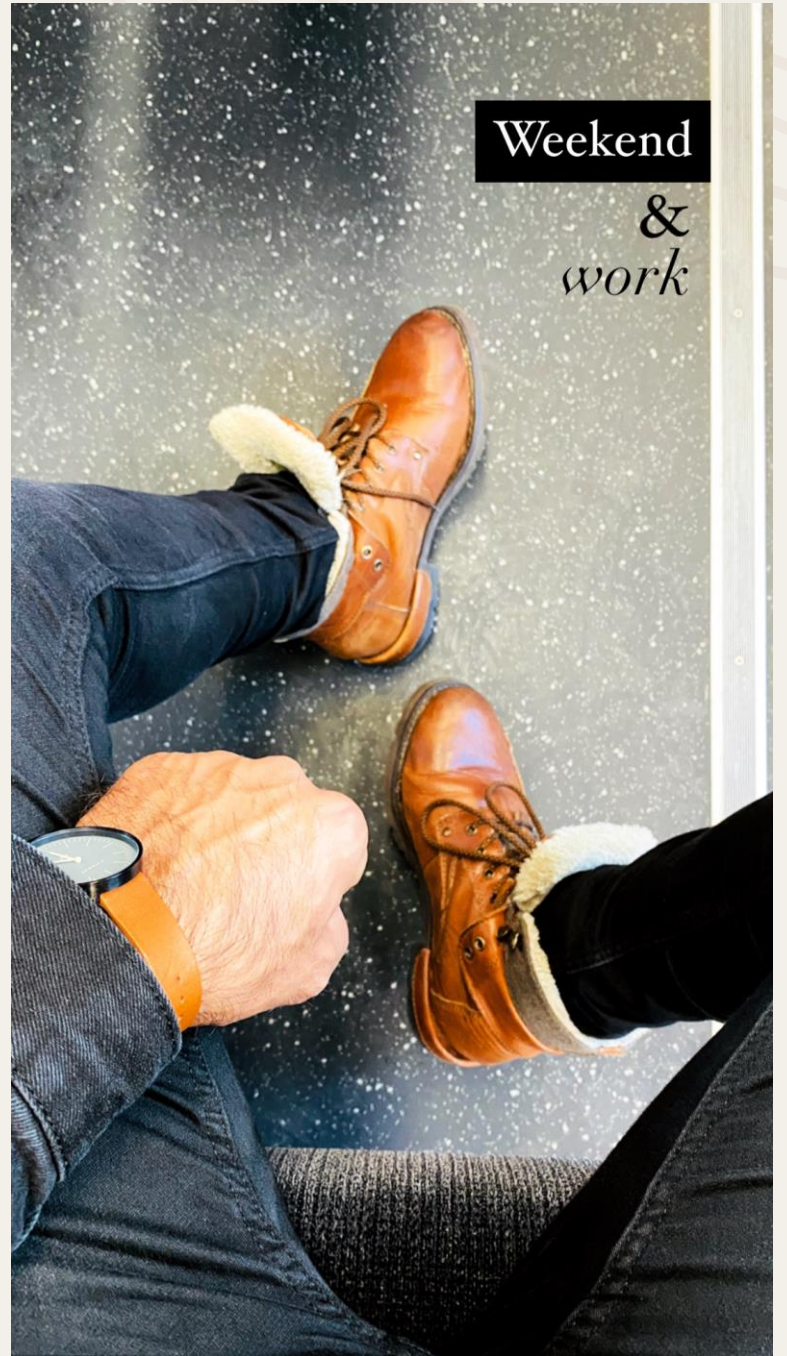

# Point of view

**Try selecting and unusual point of view.**

"a photographer is always  
looking for a moment"  
- Abdulrab Habibyar

# Proximity

Don't be shy!  
Get close to your subject.

Contrast, Light, Point of view and Proximity are tools to help you **MASTER** the art of photography.
